UNION COLLEGE.—On Sunday evening, the 23rd, at half past 7 o'clock, Rev. ERENEZ HALL, will deliver an Address before the Theological Society.

On Monday, the 23rd, at half past 7 P. M. THOMAS SPENCER, Esq. will deliver an Address before the Philomathean and Adelphean Societies.

On Tuesday, at 4 o'clock P. M., Hon. WILLIAM HALL will deliver an Oration, and Dr. J. K. MITCHELL a Poem, before the New York Alpha of the Phi Beta Kappa Society.

On the same day, at half past 7 o'clock P. M., Hon. GEORGE P. MARSH will deliver an Oration before the Library Society.

The Commencement Exercises will be held on Wednesday, the 25th, at 10 o'clock A. M.

THE WEATHER.—Our Thermometer got as high as 94° at 2 yesterday afternoon, and in half an hour after we had a magnificent storm of wind and rain, then which nothing could be more welcome, to relieve the intense heat of the past three days.

EX-PRÉSIDENT Tyler was in Philadelphia on Monday, en route for Newport, with his lady. Major John P. Heiss, of the Union, left there on Monday for Cape May.

CORRECTION.—The Niagara (Lockport) Courier states that the recent attempt of the colored people at Niagara Falls to rescue a female slave from her master was prompted by the fact that she was kept secluded (some say confined) under circumstances which induced the belief that she was illegally restrained of her liberty.

EXPRESS.—The Galveston news, which was received at Boston on the 31st, was forwarded to Montreal over two distinct routes, one via Pittsburgh and Rutland, the other through Concord and Franklin, N. H.

THE BURLINGTON FREE PRESS says that the "Express" via Pittsburgh and Rutland, run by Messrs. Cook, Field & Co., and M. L. Church, is now making a record of 100 miles in 23 hours, and runs twice a week.

ARRIVAL OF EMIGRANT PASSENGERS.—During Saturday and Sunday last, the number of emigrant passengers arrived at this port from foreign ports, amounted to 407, principally Germans and Dutch.

FOUND DEAD.—Mary Smith, residing at No. 36 Bedford street, was this morning found dead in her bed. The deceased had been sick for some time.

COUP DE SOLIEL.—James Grimes residing at No. 49 Allen st., was taken suddenly ill yesterday. In William St. Dr. McDaniel was called who prescribed for him. He is now having partially recovered, was taken to his home.

SPECIAL SESSIONS.—Bridget Martin, for stealing a stone china ewer, City Prison 30 days. Elizabeth Martin, for stealing a silver watch, City Prison 30 days. John Thompson, for stealing a silver watch, City Prison 30 days.

NEW-YORK, WEDNESDAY MORNING, JULY 21, 1847.

CITY ITEMS.

FESTIVAL ON BOARD THE UNION.—This beautiful ship was opened on Monday evening through the politeness of the Agent of the Company, M. Leon LeCompt, to a large party of gentlemen and ladies, including the Fathers of the City, and most of the prominent members of our French population.

The main deck was formed into a dancing saloon by curtains. Lights and music were natural, the beauty and fashion of the native and foreign population.

The company numbered about six hundred, of whom the greater portion were ladies. A fine band of music had been provided, and until a late hour a succession of waltzes, polkas, &c. kept bright the hours.

The officers of the ship, with the provincial courtesy of their nation, devoted themselves assiduously to the entertainment of their fair guests, and but for appearing invidious we could make disclosures which would be highly flattering to the handsome Captain. After the guests had retired, the ship was again opened to the public.

On Tuesday, at 4 o'clock P. M., Hon. WILLIAM HALL will deliver an Oration, and Dr. J. K. MITCHELL a Poem, before the New York Alpha of the Phi Beta Kappa Society.

On the same day, at half past 7 o'clock P. M., Hon. GEORGE P. MARSH will deliver an Oration before the Library Society.

The Salt and Salt Lakes of Algeria.—M. Fournell, of Paris, has presented an extended memoir, in which are given many interesting details and important facts relative to the salt lakes and salt deposits of Algeria.

The most important deposit is that of the salt mountain near Biskra, where the salt is imbedded in the cretaceous formation. The mines are leagues West of Biskra, and are situated on the eastern base of the Ziger, which is at least twelve leagues long and two broad, was covered through, in April, 1844, with a crust of salt having a glistening surface and looking like snow.
